- Designing and implementing improvements to the museum website including media display & University branding standards. Working with HTML, CSS, JavaScript, Adobe Photoshop, Filemaker Pro and PHP to get best visual and practical results.

Decolonizing Our Books

Delhi, India (remote)

Volunteer, Front-End Development

January 2021 – ongoing

- Making a website for the organization using ReactJS, CSS and HTML based on designs made using Figma to promote the mission of the organization as well as increase awareness about their project focused on making literature and art by authors of marginalized and intersectional identities more visible and accessible.

InstaHub

Philadelphia, PA (done remotely)

Marketing and Web Design Intern

May – August 2020

- Made the website using Squarespace with custom CSS and HTML using provided theme as starting off point and added practical features like toggle button, dropdown box and testimonial carousel along with decorative features. Wrote a regular blog for the website which included topics like vacancy sensors, carbon emissions of gadgets. (www.getinstahub.com)
- Worked on social media campaigns to increase awareness before product launch. Created content (images and gifs) using Figma, Canva, Adobe Illustrator and Adobe Photoshop for website, social media & product one-pagers to convey information precisely and as directly as possible.

Avendus Capital Pvt. Ltd.

New Delhi, India

Non-banking Financial Intern

June – August 2019

- Worked on a project about financial technology and its incorporation in Avendus' NBFC supply chain lending along with possible costs and benefits of introducing advanced technology to face to face interactive work. Work included data collection and analysis to find unique solutions for the company and its clients. Helped associates with research regarding clients with ongoing loans processes and prospective clients.
